

CASE STUDY

RANGE ROVER / MAZDA DEALERSHIP

Arena Tiling were contracted to provide a supply and fit package by the clients architect to incorporate floor tiling to two a joining dealerships. This had to be done in a way of ensuring both brands had there own corporate identity in line with the particular vehicle manufacturer showroom requirements, while at the same time ensure the two showrooms worked well together.

The total job comprised of 500m² of floor tiling split between Range Rover and Mazda, the Range Rover section had to incorporate a rough terrain appearance and this was achieved by sections of pebbled mosaics incorporated into the main bulk of showroom floor tiling.

Arena Tiling have a specialist division solely dealing with Car Showrooms, so look no further than Arena for all your Motor Industry Tiling requirements.
