

CASE STUDY

THE HILTON WALDORF, LONDON

ARENA TILING LIMITED are proud to be associated with the refurbishment work at the prestigious London Hilton Waldorf Hotel located in the capitals Theatre district.

The work undertaken by Arena was received extremely well by client, designers and the main contractor.

The work involved the strip out, preparation and installation of all new tiles. The floor tiles were laid to a detailed pattern complete with a double perimeter border and diamond lay to the main floor tile. The wall tiles were 200x95mm bevelled edge white ceramics laid brickbond and trimmed with a stainless steel bead.

Arena installed over 800m² of wall and floor tiling without a single snagged item.

The quality level offered by Arena on this project has sparked interest on many further hotel projects in the capital.
